

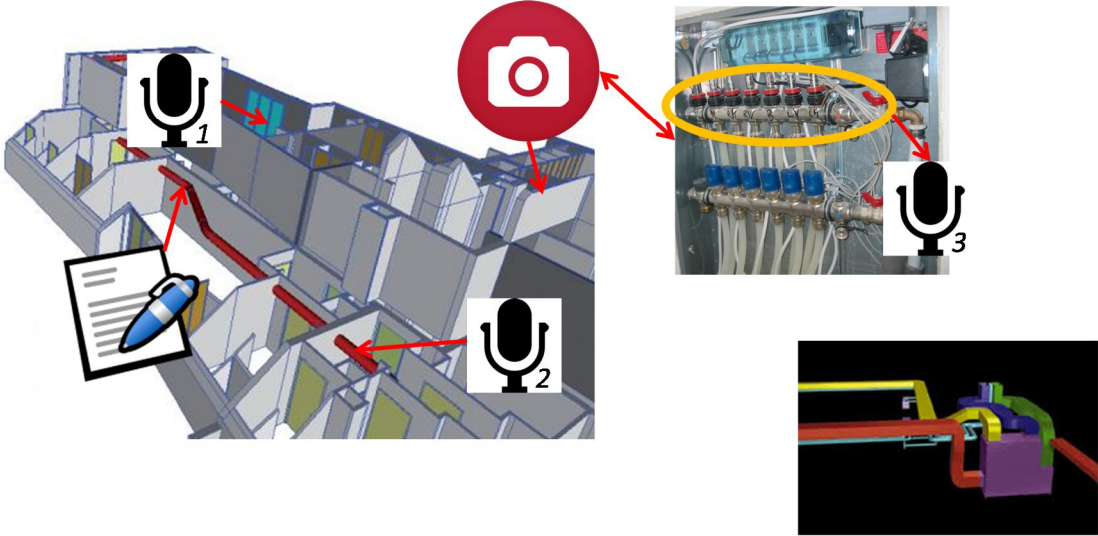

**Fig. 5: Example of creation and sharing of integrated file, including voicetags and other linked tags, 3D (integration on x,y,z – level)**

- 1 shows a voice tag, which is linked and integrated to a x,y,z position in a 3D picture
- 2 shows a second voice tag, which is linked and integrated to a x,y,z position in a 3D picture
- 4 shows a text document, which is linked and integrated to a x,y,z position in a 3D picture
- 5 shows a additional photograph, which is linked and integrated to a x,y,z position in a 3D picture (3) is a voice tag which is integrated to this additional file, in this case on a x,y level, as the additional pic is 2D
- 6 shows that additional pics can also be 3D, again tagged etc...
